

How to start a game in Lichess

1. Click on the hyperlink in the pairing list next to opponents name (e.g. to challenge Alan Brewis, click on the link <https://lichess.org/@/ospray>)

Nathan	Wong	https://lichess.org/@/NathanWong	0	-	0	https://lichess.org/@/lakischess	Lakis	Dometakis
Sammy	Rose	https://lichess.org/@/SRose97	0	-	0	https://lichess.org/@/Yorkspadez	Brian	Kirby
Roman	Wrzesinski	https://lichess.org/@/Rceder	0	-	0	https://lichess.org/@/ospray	Alan	Brewis
James	Hurley	https://lichess.org/@/S777ifh	0	-	0	https://lichess.org/@/StuartH128	Stuart	Harris

This should start Lichess, and take you to your opponent's home page.

Alternatively, from your home page, you can search for your opponent's username (e.g. for Alan Brewis, just search for "ospray" without the <https://lichess.org/@/>)

Set the game parameters as shown here, then click the White king to play as White, or the Black king to play as Black

By convention, the person playing White issues the challenge, and the person playing Black responds.

To respond to a challenge, you need to be on Lichess (obviously) on your home page.

When the challenge appears, you can accept or reject it. (You may possibly get challenges from random opponents who are nothing to do with HCA online. It's also possible that your challenger may have accidentally clicked the link for the wrong opponent.)

Before accepting the challenge, check that the game parameters are correct.
