

Equipment Curator – Mike Price

The equipment previously held by Sanjay Vig was collected by Michael Flatt for use at the U1850 ECF County Championship Final.

The curator witnessed the equipment being taken away by Michael Flatt after the conclusion of the Final, but is it still in his possession?

All other HCA equipment is at the residence of the curator, but the analogue clocks are getting to the stage where they should be considered obsolete, and most of the digital clocks held by the curator are first generation digital clocks, which themselves are now of dubious value.
